

## **Book and Video List**

Books with an asterisk next to them indicate those I feel are essential to understand the subject matter, hands down. This isn't to say all the rest of the books aren't worth reading, they are because each one has something different or other resources in which a person can cross check.

The only way one can really learn how America is being destroyed, world events, how they affect your life and your family is to read thoroughly researched, well documented books. By evaluating all data and **all sides to the argument**, then one can make an informed decision and act.

The list below doesn't include all the books I have checked out at the big public libraries in both Denver and Sacramento. Heck, I can't even remember all of them that I checked out to cross reference historical data in other books.

There are about 50 books I have that aren't worth reading. These are popular "patriot" publications that in my humble opinion are junk and not worth reading. Many of these are on the income tax by people I consider to be cons, charlatans and shysters out to make a buck.

If you'd like to learn more on this issue, I respectfully recommend you visit Larry Becraft's legal site. He is a constitutional attorney with 28 years experience as a criminal defense attorney, primarily defending individuals against the IRS. He has seen the system from a perspective most of these "tax gurus" never have, but with their garbage publications which sell poison, it's their customers that end up in jail. Larry's site is:

**Wealth, Virtual Wealth and Debt: The Solution of the Economic Paradox** by Federick Soddy, M.A. F.R.S. Omni Publications

**Judaism's Strange Gods** by Michael A. Hoffman II.

**This is a very controversial book.** However, it is also a thoroughly documented book. Hoffman gives a reference for every sample and the book is full of footnotes so people can research on their own. Quite frankly, I found this work shocking and have been following up on verifying his research. So far, I found no mistakes in his footnotes, but it is a cumbersome research project I only work on when I can get down to the big university library.

This is the description provided for the book on Amazon:

Michael A. Hoffman II was educated at the State University of New York at Oswego. He is a former reporter for the New York bureau of the Associated Press and the author of several books, including Secret Societies and Psychological Warfare and The Great Holocaust Trial.

### **Product Description:**

In this scholarly and deeply considered work, the author documents his provocative thesis that Judaism is not the religion of the Old Testament, but the newly formalized belief system of the Pharisees, which arose in Babylon with the commitment of the formerly oral "tradition of the elders" to writing, in the wake of the crucifixion of Israel's Messiah and the destruction of the Temple.

Basing his findings on authoritative Judaic sources, Hoffman demonstrates that Judaism is a man-made religion of tradition and superstition, which represents the institutionalized nullification of Biblical law and doctrine.

Liberating the reader from the accumulated shackles of decades of misinformation, this book shows that Judaism's God is not the God of Israel, but the strange gods of Talmud and Kabbalah, and the racial self-worship they inculcate.

Making a relentless case with massive documentation and a lapidary attention to detail, Judaism's Strange Gods constitutes a shocking and original revelation about a subject we thought we knew only too well.

**Murder by Injection: The Story of the Medical Industry Conspiracy Against America** by Eustace Mullins. This book probably saved my life. The ER doctor ranted to my husband and said I could die. For the next eight days I was sick as ten dogs, but pulled through and haven't had the flu since. I **highly** recommend it.

**Foundations** by Rene A. Wormser \*

A definitive in-depth 1953 investigation of foundations made by a Special Congressional Committee headed by Representative Carroll Reece of Tennessee. The investigation of these tax-free organizations, writes Rene Wormser the committee's general counsel, "leads one to the conclusion that there was, indeed, something in the nature of a conspiracy among certain leading educators in the United States to bring about Socialism through the use of our school systems.

Part of this complex are the Rockefeller and Carnegie groups of foundations." In his famous book, *Tragedy and Hope*, Dr. Carroll Quigley (late known as Bill Clinton's chief mentor at Georgetown) revealed that "people of immense wealth" soon made it known that they would be very "unhappy if the investigation went too far." As a result of various types of bribery, pressure, coercion and intimidation inspired by these "people of immense wealth," the committee was soon dissolved ... and its investigation forgotten by most. *Foundations: Their Power and Influence* is a vitally important source of knowledge and understanding regarding the use of the school system in the subversion of America.

**The Two Faces of George Bush** by Anthony C. Sutton \* This hard hitting book brings to light the little known background of the father of the man who is now president of the United States. Learn of Bush's involvement with a high level secret society --- Skull and Bones --- and his lavish praise for a Marxist dictator.

**The Perestroika Deception: The World's Slide Towards The 'Second October Revolution'** By Anatoliy Golitsyn (the famous genuine Soviet defector and author of *New Lies for Old*). \*

In his new book, the author develops his remarkable analyses in *New Lies For Old*, a study of which has revealed that 94 percent of Golitsyn's predictions of how the Soviets would behave (dating from the early 1980s) had been fulfilled by 1993.

The new work contains innumerable further predictions that have since materialized or are clearly in the process of being fulfilled. Golitsyn's record of predicting Soviet strategy, derived from his years as an officer in the "inner KGB", puts all other analysts to shame and leaves Western intelligence communities looking negligent, incompetent, and penetrated.

*The Perestroika Deception* provides the correct framework for understanding why the world is in such a mess today. It shows that there has been no discontinuity of Soviet Leninist-satanic revolutionary strategy, which seeks the destruction of nation states and their replacement by regional and global "collective governance" (a world Communist Dictatorship). -- Edited by Christopher Story, Editor and Publisher, *Soviet Analyst*.

**The Shadows of Power** by James Perloff \* This is the story of the Council on Foreign Relations and the American Decline. It began in 1921 as a front organization for J.P. Morgan and Company. By World War II it has acquired unrivalled influence on American foreign policy.

Hundreds of U.S. government administrators and diplomats have been drawn from its ranks ?less of which party has occupied the White House. What does the Council on Foreign Relations stand for? Why do the major media avoid discussing it? What has been its impact on America's past ?what is it planning for the future? These questions and more are answered by James Perloff in *Shadows of Power*. "To not read this book is to live dangerously" -- Philip Crane, United States Congressman.

Neutralizers like Rush Limbaugh, Shawn Hannity, Bill O'Reilly and others poo-poo the power and influence on Congress and control our lives. They are dead wrong, but their multi-million dollar paychecks depend on keeping the American people in the dark and dumbed down.

I'm so sorry that it hasn't been made. PowderKeg is a great read. ISBN 0-89141-435-5. masses, the masses would save themselves. Ann Wilson's book has made this possible and every freedom-loving American owes her a debt of gratitude." Jim Johnson, Arkansas Supreme Court Judge, Retired.

If you are a Mason or any order, please research this topic. Most decent men who are Masons really don't know the truth about the roots of Freemasonry, but they need to – very much. Many of the books below were written by former 32<sup>nd</sup> level Masons who were horrified about what they found out when they reached that level. Some have died mysterious, violent deaths. Most Masons have never read *Morals & Dogma* by Albert C. Pike. I have and if Masons just would, they'd run like heck in the other direction.
