Money Matters

It takes money to run servers, do on site investigations, attend only the most important events and purchase research materials. I am now entering my 17th year in the movement. When I found out what was happening right under our noses, I gave up my career all those long years ago and about a million dollars in income.

We're now seeing America on the brink. There is much work to be done in getting Americans organized to effectively fight. Over all these long years I have supported hundreds of groups and authors whose books are critical in educating our fellow Americans. I have never asked nor received any compensation for all of these referrals, nor have I accepted speaking fees. I was not paid to run for Congress twice or do the thousands of radio shows I've done. I have never asked nor would I take advertising fees for my Made in America section. I'm not some prima dona with a big staff; I'm the whole show. My husband retired in November 2006 after 43 years in the work force. As we now live on a fixed income, I simply cannot absorb the costs without your help.

The last week of January 2007, I was able to personally deliver about \$300.00 worth of materials to two state senators in Arizona regarding the Seventeenth Amendment and 911. None of this would have been possible without your donations. I can be your eyes and ears and report what I see and hear, but not if I cannot attend these functions. That is why your financial support is so important.

Where can you hear me on radio? This is a frequent question into my e-mail box and the answer is I don't have a radio show. Although I have been a guest more than 2200 times on the air, I have never had my own show. That's not to say I don't want my own show, I do and have been trying for the past year to find financially blessed individuals who would fund a new station where we could syndicate and get the truth out to our fellow Americans instead of the political hot air that dominates the air waves today. Unfortunately, there doesn't seem to be any interest in creating a constitutional version of FOX for radio. I am making a renewed

effort to find an open slot on an existing radio station where I would actually earn a paycheck which will allow me to take down this donation page.

Open radio slots for constitutionalists are far and few in between, but if you know a station that would benefit from my experience, knowledge and professionalism, please do contact me via my e-mail: devvyk@earthlink.net

The next year to eighteen months will be the most critical period in the history of this country since the Revolutionary War and anyone who doesn't believe that, with all due respect, is in selective denial. These truths are painful, but they are reality. I will do my best to continue provided cutting edge journalism and hopefully, in the near future, you will hear me on the radio air waves.
