

McVEIGH'S SECOND TRIAL

Part V - Photos

These are URL's for photos of the crime scene. The first two are Timothy James McVeigh at the airport on his way to Tinker AFB and his arrival.

Note: July 3, 2005: Many of these links are no longer available (*), which means they have been pulled from the Internet. No doubt the newspapers and other agencies still have them, but I know for a fact they were pulled shortly after this series was originally posted to my web site.
